PRESS RELEASE

NEW YORK, Jan. 7 — The following telegram was sent Jan. 6, 1974 by the National Caucus of Labor Committees to President Nixon.

TELEGRAM TO THE OFFICE OF THE PRESIDENT

The National Caucus of Labor Committees has uncovered a CIA conspiracy involving brainwashing, insurrection against the U.S. Government and its laws, and planned assassinations. Full evidence of these charges proving CIA conspiracy against the people and government of the U.S. is in our possession. The CIA is coordinating local, state and Federal police agencies to prevent investigation, to suppress evidence, to arrest, detain or assassinate those in possession of such evidence. It is in the overriding national interest that the Office of the President take precautionary measures to protect the nation and its people in face of strong indications of potential major threat to the national security. We are too poorly equipped to assess full magnitude of operations we have detected, and offer you fullest cooperation in disclosing and further developing evidence you may receive from us. It is in the immediate national interest that the Office of the President dispatch appointed White House advisors to communicate with us to review evidence of CIA conspiracy.

THE FOLLOWING REMARKS WERE ADDED TO THE TELEGRAMS SENT TO SENATOR EDWARD KENNEDY AND JUSTICE WILLIAM O. DOUGLAS:

We urge you or representatives to review evidence. We will phone Monday, a.m., on formation of an Emergency National Commission of Inquiry. It is in the national interest that the evidence be protected and not suppressed.

NBC Announces Series to Push Brainwashing

NEW YORK, Jan. 7, 1974-NBC networks, which have so far strictly adhered to the CIA-imposed press blackout on the Chris White brainwashing case, have announced a series of programs on "behavior modification," i.e. **brainwashing**. The timing of this series and NBC's refusal even to consider the evidence of Chris White, leaves no doubt that NBC is now supporting the CIA's policy of brainwashing.

Brainwashing is nothing but an intensive form of behavior modification where the behavior of a free and dignified human being is "modified" into that of a sub-human zombie.

NBC's advertising in at least four cities indicates that the network views this dangerous, illegal CIA practice favorably. In fact, they intend to discuss many so-called innovations in this area-- all under the general rubric of "**behavior modification!**"

Everyone should know that brain-washing and related forms of "behavior modification" are strictly **illegal** practices in direct violation of the **Declaration of Human Rights** and the **Nuremberg Principle**.

The **National Caucus of Labor Committees** alerts all individuals that any press coverage of "behavior modification" or other euphemisms for psychological brainwashing, represents nothing but CIA propaganda directed at "conditioning" the American people to accept the **CIA policy** of brainwashing and the political purposes of this brainwashing. All **human** individuals who discover any favorable press coverage of such illegal and inhuman practices should immediately inform the National Caucus of Labor Committees. Every person should call the news media involved and demand an accounting of their activities.

We are determined to prevent the airing of this fascist material. As a first step every person should call the news media involved and demand an accounting of their activities. At the same time we will demand equal time to present the human view of human behavior. We will not let the press and NBC prepare the public to accept mental destruction as a necessary step in accepting slave labor existence.
